

LEAN PIPE SYSTEMS

*Plastic Covered
Lean Tube, Joints
and Accessories*

COATED PIPES

The coating on the pipes serves as a barrier between the pipe material and the surrounding environment, preventing rust and other forms of corrosion. The coating helps extend the lifespan of the pipes and reduces maintenance costs.

ACCESSORIES FOR VISUAL WORKPLACE AND MOBILITY

Versatile metal and plastic accessories to complement your modular systems. Integrated with Lean Production systems, for use in Modular Shelf systems produced visual equipment. Drawbars and holders used in Wagons, Conveyors and Carts.
